

SAFETY DATA SHEET

ACCORDING TO REGULATION (EC) NO 1907/2006 (REACH)

Section 1. Product and Company Identification

Product Identifier

Product Name
Product CASRN
Product Description
Relevant identified uses of the substance or mixture and uses advised against material uses:

Magenta toner powder (cartridge) PN: 14880004
Mixture
Magenta toner
For electrophotographic printing systems

Details of the supplier of the safety data sheet

USA Manufacturer:
OKI Data Corporation
3-1 Futaba-cho, Takasakishi, Gunma.
370-8585 Japan
Tel: +81 27-328-6366 Fax: +81 27-328-6398

Supplier:
AstroNova Inc.
600 East Greenwich Avenue
West Warwick, RI 02893
Tel: +1 401-828-4000

Emergency Telephone Number USA:

1-800-654-3282

Section 2. Hazard(s) Identification

Product Classification per 29 CFR 1910.1200

Hazard Classification

This product does not satisfy any of the criteria for a hazardous material per the guidelines established by the United Nations (Globally Harmonized System of Classification and Labeling Chemicals) as specified in 29 CFR 1910.1200 Hazard Communication (2012).

Signal Word

Not Applicable

Hazard Statements

Not Applicable

Recommended Safety Precautions

Injury Prevention

Take all precautions to prevent dispersion of this product in air. Eliminate all sources of ignition. Take precautionary measures against static discharge. Good industrial hygiene practices should be followed when handling this material. Wash thoroughly after handling.

Emergency Response

IF IN EYES: rinse cautiously with water for 15 minutes. Remove contact lens, if present and easy to do. Continue rinsing. Seek medical attention if necessary.

Product Storage

IF ON SKIN: gently wash with plenty of soap and water. Call a POISON CONTROL CENTER or doctor if symptoms develop or you feel unwell. Protect from sun. Store in a well-ventilated room (under 40° C). Guard against accumulations of this material on surfaces. Eliminate all sources of ignition.

Product Disposal

DISPOSE of product and containers in accordance with all applicable local, state, federal, and international regulations.

Hazards Not Otherwise Classified

Pyrophoric Gases
Simple Asphyxiants
Combustible Dust

Not Applicable

Not Applicable

Product has not been tested for combustibility. However, as similar products are known to be combustible, the potential for this material to combust is a real hazard. All precautions should be taken when handling this product to avoid dispersion of the material in air.

Dust Classification	Minimum Ignition Energy (mJ)	Pmax (bar-g)	Rmax (bar/s)	Rmax (bar-m/s)	Explosion Severity
Unknown (material has not been tested for combustibility)					

Definitions for dust classifications are found in OSHA Instruction CPL 03-00-008 *Combustible Dust National Emphasis Program (reissued)* March 11, 2008, Appendix E, Section 5

Other Known Hazards None

FOR INFORMATION REGARDING ENVIRONMENTAL GHS CLASSIFICATION, REFER TO SECTION 12 BELOW

Section 3. Composition/Information on Ingredients

Chemical Name	Common Name	CAS Number	Concentration (%)
Confidential	Polyester resin	Confidential	Confidential
Confidential	Pigment	Confidential	Confidential
Confidential	Wax	Confidential	1 – 5
Confidential	Silica	Confidential	1 – 5
Other components	--	Confidential	--

Section 4. First-Aid Measures

Eyes	Immediately flush eyes with plenty of water for at least 15 minutes. If necessary, seek medical attention.
Skin	For skin contact, wash immediately with soap and water. If necessary, seek medical attention.
Ingestion	If the material is swallowed, get immediate medical attention or advice.
Inhalation	Call a physician if symptoms develop or persist.
Symptoms of Exposure	None known.
Notes to Physician	Provide general supportive measures and treat symptomatically.

Section 5. Fire-fighting Measures

Flammable Properties	Refer to SECTION 9: Physical and Chemical Properties Irritating and toxic gases or fumes may be released during a fire. Dusts at sufficient concentrations can form explosive mixtures with air. Water spray or powder Firefighters should wear full protective clothing including self contained breathing apparatus.
Hazardous Products of Combustion	
Properties that could Increase Fire or Explosion Hazard	
Extinguishing Media	
Fire-fighting Instructions	

NFPA ratings are found in SECTION 16

Section 6. Accidental Release Measures

FOR ALL TRANSPORTATION ACCIDENTS, call at -----

Response to small spills of product

Spill Containment

Spill Cleanup Procedures

Required Equipment

Additional Information

Containment of this material should not be necessary.

Vacuum up the spilled material.

Vacuum or sweep up material and place in disposal container.

No other spill procedures necessary.

Response to large spills of product

Spill Containment

Spill Cleanup Procedures

Required Equipment

Additional Information

Stop the flow of material, if this is without risk. Contain the discharged material. Remove sources of ignition.

Avoid the generation of dusts during cleanup. Use water mist on the spilled material to wet surfaces and prevent dusting. Vacuum or sweep up material and place in a disposal container. Put material in suitable, covered, labeled containers.

Any equipment that presents a risk of accumulating static electricity should be properly grounded/bonded when used in the cleanup of this material. Wear appropriate protective equipment and clothing during cleanup.

No other spill procedures necessary.

Section 7. Handling and Storage

Handling Requirements

Storage Requirements

DUE TO THE POTENTIAL FOR COMBUSTIBLE DUST EXPLOSION, avoid conditions, which may result in formation of a dust cloud. Implement best housekeeping practices to prevent accumulation of this product on surfaces.

Equipment used to remove accumulated product should be protected against static ignition. As with all chemicals, good industrial hygiene practices should be followed when handling this material. Avoid getting this material into contact with your skin and eyes. Do not breathe fumes or dust from this material. Wash thoroughly after handling.

Store in a cool, dry, well-ventilated area.

This material can accumulate static charge, which may cause spark and become an ignition source.

Guard against dust accumulation of this material.

Section 8. Exposure Controls/Personal Protection

Engineering Controls

Provide adequate local exhaust ventilation to maintain worker exposure below exposure limits. Prevent electrostatic charge build-up by using common bonding and grounding techniques.

Personal Protective Equipment
Eye/Face Protection
Hand Protection
Skin Protection
Respiratory Protection

Wear dust goggles.

Use impervious gloves.

Normal work clothing (long sleeved shirts and long pants) is recommended.

A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever there may be potential for airborne exposure.

Exposure Limits

Chemical	CASRN	Percent	Limits	Agency
Particulates not otherwise regulated	-	-	15 mg/m ³ TWA (total dust); 5 mg/m ³ TWA (respirable fraction)	OSHA
Paraffin wax	8002-74-2	1 – 5	2 mg/m ³ TWA (fume)	ACGIH
Particles (insoluble or poorly soluble) Not Otherwise Specified (PNOS)	-	-	10 mg/m ³ TWA (inhalable particles, recommended); 3 mg/m ³ TWA (respirable particles, recommended)	ACGIH

Will not occur.

Section 11. Toxicological Information

Acute Effects

Eye Effects

Skin Effects

Acute Oral Effects (Ingestion)

Acute Inhalation Effects

Target Organs

Dust or powder may irritate eye tissue.

Not expected to be a primary skin irritant.

Low toxicity.

Dust of this product may cause irritation of the nose, throat, and respiratory tract.

No known effects.

Chronic Effects

Mutagenicity

Teratology

Reproductive and Developmental Toxicity

Ames Test (TA98, TA100, TA1535, TA1537, TA1538, WP2uvrA): Negative

No data available for this product.

No information available.

Carcinogenicity

Chemical Name	Data	Agency	List
Silica, amorphous	Monograph 68 [1997]; Supplement 7 [1987]	IARC	Group 3 Not Classifiable as Carcinogens

None of the components of this product are listed on the OSHA Possible or Select Carcinogens Lists.

None of the components of this product are listed on the ACGIH Carcinogens List.

None of the components of this product are listed on the NPT Known or Suspected Carcinogens List.

Other Toxicological Information

No information available

4% of the mixture consists of ingredients of unknown toxicity.

No information available

4% of the mixture consists of ingredients of unknown toxicity.

No information available

Inhalation of this product may aggravate existing conditions of the respiratory system such as asthma or bronchitis.

Routes of entry for solids and liquids include eye and skin contact, ingestion and inhalation.

SKIN CORROSION/IRRITATION: Rabbit, undiluted, 4 hours semi-occluded application test (OECD 404): Not classified, P.C.I. = 0

SERIOUS EYE DAMAGE/IRRITATION: Rabbit, undiluted, OCED405: not classified, I.A.O.I. = 0.0

SKIN SENSITIZATION: Local Lymph Node Assay (LLNA, OECD429): negative

Persistence & Degradability	No information available
Bioaccumulation	No information available

Section 13. Disposal Considerations

Waste Description	Wastes must be tested using methods described in 40 CFR Part 261 to determine if it meets applicable definitions of hazardous wastes. Clean up and dispose of waste in accordance with all federal, state, and local environmental regulations. Disposal of waste material according to local, state, federal, and provincial environmental regulations.
General Disposal Considerations	
Disposal of Empty Containers
